CIAP Funds Requested: \$800,000 (total) - \$200,000 (annually)

Infrastructure Funds: None

Project Description:
and Location Use of vegetation materials to reduce or stop coastal wetland erosion in Assumption, Cameron, Iberia, Jefferson, Lafourche, Plaquemines, St. Bernard, St. Charles, St. James, St. John the Baptist, St. Martin, St. Tammany, Tangipahoa, Terrebonne and Vermilion parishes.

Type of Project: Conservation, restoration and protection of coastal wetlands by planting selected sites with herbaceous and woody plant materials

Project Justification: Supports state and federal coastal restoration and protection programs by providing low cost protection for critical coastal landscapes; stopping wetland loss and increasing productivity and vigor of the wetlands at and surrounding revegetated sites.

Project Cost-Share: \$400,000 annually in state funds
